

Shiloh High School-WoodLINKS USA

Shiloh High School's WoodLINKS USA Department Mission Statement

The new millennium is bringing about swift and dramatic changes in the industry and economy of the United States of America. Because of these changes, the education and career opportunities of the population are also changing. Due to the complexity of society and the advancement of technology, the individual's security in the workforce is best achieved by providing a foundation of practical education based on the knowledge and skills needed by businesses, industries, and communities in our society.

Shiloh High School's WoodLINKS USA program offers its students the best curriculum, equipment, software, and CNC training that our education/industry partnerships can offer. We are always looking for new supporters to sustain and improve the educational/work experiences that our students experience.
