Valspar Wood Coatings donates Finish to Morris Community High School's

Advanced Manufacturing Project

The Industrial Technology program wants to thank **Valspar Wood Coatings** for donating **Finish** to our program to be used on our Taylor Guitar Project. This is a tremendous help to my students and their education here at Morris Community High School. The Taylor Guitar project and learning how to spray finish is a great way to interest students in learning, and problem solving, and expose them to the wood industry. The donations from **Valspar Wood Coatings** will help us with our Taylor Guitars and get one step closer to starting our Advanced Manufacturing program.

Attached to the email are photos of the students working on their guitars.

Thank You

Mark Smith

Industrial Technology Instructor

Morris Community High School
