Veneer Tech donates Veneer to Morris Community High School's
Advanced Manufacturing Project

The Industrial Technology program wants to thank **Veneer Tech** for donating **Veneer** to our program to be used building our Advanced Manufacturing Program. This is a tremendous help to my students and their education here at Morris Community High School. Introducing veneer onto the program is a great way to interest students in learning, and problem solving, and exposing them to the wood industry. The donations from **Veneer Tech** will help us get one step closer to starting our Advanced Manufacturing program.

Attached to the email are photos of the students working on their guitars.

Thank You

Mark Smith
Industrial Technology Instructor
