Woodline donates to Morris Community High School's

Advanced Manufacturing Project

The Industrial Technology program wants to thank **Woodline** for donating **Router Bits** to our program to be used building our Advanced Manufacturing Program. This is a tremendous help to my students and their education here at Morris Community High School. The router bits will be used to shape our Taylor Guitar necks, and help expose them to the wood industry. The donations from **Woodline** will help us get one step closer to starting our Advanced Manufacturing program.

Contact Morris Community High School's Industrial Technology Program
if you want to become an Industry Supporter.

Mark Smith
